## PRIVA-LITE PIVOT DOORS

Doors are indispensable everywhere, and you can additionally optically increase your space applying glass doors. Even though transparent glass doors are generally a very good solution to make a room larger and brighter, sometimes seeing the adjacent room can be a real nuisance.

In such cases the perfect option would be a pivot door with PRIVA-LITE switchable glass.

## INCREASE AND COMBINE

We can additionally increase visually our space by using glass doors, not giving up privacy which we sometimes need.

You decide if your glass is transparent or not.

Select ON or OFF, and with just one click change the translucency of your glass.

**SEE WHAT IS POSSIBLE  
WITH PRIVA-LITE PIVOT DOORS**

**ON**  
**Summit meetings**

**OFF**  
A conference hall surrounded with walls in the ON state is full of light and seems more spacious. When the glass is in the OFF state, the room fosters concentration.

**ON**  
**Privacy in offices**

**OFF**  
With transparent glass doors in office rooms, your customers will have a better understanding of who they can talk to. If you need to hold important meetings away from the prying eyes, simply select the OFF setting.

## WELL-LIT BATHROOMS

If you stay alone in a hotel room, you can set the door glazing in the transparent mode and enjoy daylight in your bathroom. In case you share a room with someone else, you may sometimes need some privacy in the bathroom.

# BENEFITS

---

## INCREASE AND SEPARATE SPACE

With pivot doors you can not only connect rooms by opening the door but also visually increase or limit the space by using the PRIVA-LITE glazing effect.

---

## INTRODUCE NEWEST TRENDS

Glass doors are among the most popular trends in modern interior design. They give interiors an elegant and light look while the use of PRIVA-LITE glazing adds to their functionality.

---

## Enjoy the “wow” effect

With PRIVE-LITE glazing you will always get the “wow” effect, no matter if you install it as a glass wall or another partition wall. Use it in your pivot door and enjoy the uniqueness of this solution!

# Specification
